ADARSH CAMPUS WHATSAPP DISTRIBUTION

Adarsh Student Registration & Installation Guide

How to Install `app-release.apk` from WhatsApp & Register Your Adarsh Student Account

VERSION 2.4.0
COLLEGE: ADARSH (HN)
FILE SIZE: 74.4 MB
HOURS: 09:00 AM – 04:00 PM

WhatsApp APK	Roll Code: HN	09:00 AM – 04:00 PM	Zero 24-Hr Lock
SOURCE FILE	ADARSH CODE	DAILY WORKING HOURS	FRESH DAILY RESET

PART 1: Installing app-release.apk from WhatsApp

The Adarsh Training & Placement Officer (TPO) and Faculty Coordinators have shared the official release APK file named `app-release.apk` in your department WhatsApp groups. Follow these steps on your Android smartphone:

1 Locate & Download the APK in WhatsApp

Open your Adarsh College / Class WhatsApp group. Find the file named `app-release.apk` (around 74.4 MB) sent by your coordinator. Tap the download icon ⬇ and wait for the download to finish.

2 Tap the Downloaded File

Once downloaded, tap on `app-release.apk`. Android package installer will launch automatically.

3 Enable "Allow from this source" (Android Security Prompt)

Because you are installing directly from WhatsApp, Android will show:
"For your security, your phone is not allowed to install unknown apps from this source."
- Tap **SETTINGS** on that pop-up window.
- Turn the toggle switch **"Allow from this source"** to **ON (Blue/Green)**.
- Tap the back button ← to return to WhatsApp.

4 Google Play Protect Notice (Tap "More details" → "Install anyway")

If Google Play Protect displays a message saying *"Unrecognized app"* or *"Blocked by Play Protect"*:
- Tap **More details** (small text underneath the message).
- Tap **"Install anyway"**.

Note: This appears because the APK is distributed directly within campus WhatsApp groups rather than through the public Play Store. The application is completely safe, official, and certified for Adarsh students.

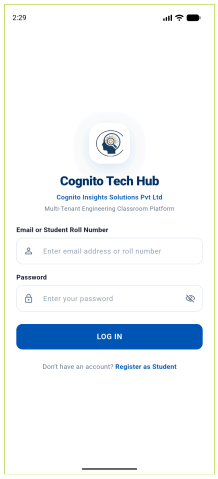

5 Tap "Install" & Wait for Completion

Tap **INSTALL** at the bottom right. Android will install the app. Once finished, tap **OPEN** to launch **Cognito Tech Hub**!

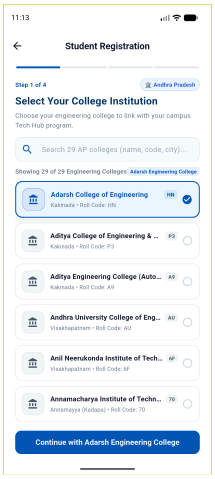

CRITICAL CAMERA PERMISSION: When prompted by Android on first camera scan, select **"While using the app"**. Camera access is mandatory to scan classroom attendance QR codes.

PART 2: Step-by-Step Adarsh Student Account Registration

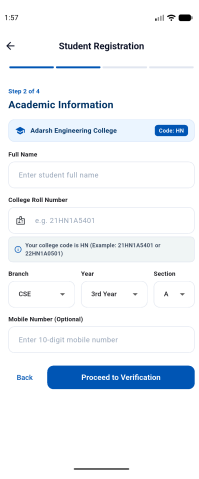

Every Adarsh student must complete a one-time self-registration to link their profile to the Adarsh nominal register and enable verifiable QR attendance tracking:

Step A: Tap "Register as Student" on Login.

Step B: Select "Adarsh College of Engineering" (HN).

Step C: Enter Roll (21HN1A...), Branch & Year.

1 Start Registration

Open the app. On the main login page, scroll to the bottom and tap **"Register as Student"**.

2 Select Your College: Adarsh College of Engineering (HN)

In the search bar, type **Adarsh** or tap **"Adarsh College of Engineering" (Roll Code: HN)**.
A blue checkmark will confirm your selection. Then tap **"Continue with Adarsh Engineering College"**.

3 Fill Academic & Personal Details (Step 2 of 2)

Complete the registration fields accurately for Adarsh College:

- **Full Name:** Enter your official name as registered on campus.
- **Adarsh Roll Number:** Must start with `21HN...` or `22HN...` (e.g. `21HN1A5401`).
- **Department / Branch:** CSE, ECE, MECH, CIVIL, AIDS, IT.
- **Year & Section:** Current academic year (e.g. 3rd Year, Section A).
- **Mobile & Email:** Enter your 10-digit mobile number and student email.
- **Password:** Create a secure password you will remember for daily login.

4 Submit & Finish Registration

Tap **"Proceed to Verification / Complete Registration"**. Your account is immediately linked to the Adarsh institutional database. You can now log in right away!

PART 3: Daily Attendance Workflow (09:00 AM – 04:00 PM IST)

Attendance marking in Cognito Tech Hub is strictly enforced within daily operating hours to ensure authenticity and prevent proxy submissions:

ADARSH ATTENDANCE WORKING HOURS — STRICT WINDOW

09:00 AM – 04:00 PM IST

Attendance is accepted strictly during this 7-hour daily working window.

1 Log in to Student Dashboard

Enter your Adarsh Roll Number (e.g. `21HN1A5401`) and Password → Tap **LOG IN**.

2 Check Classroom Session Card

Your dashboard will show today's classroom slot (e.g. *Morning Technical Slot*) and assigned faculty trainer.

3 Tap "SCAN ATTENDANCE QR"

Point your camera at the trainer's projected smart-board QR code. When scanned, your phone vibrates and confirms:
✓ TODAY'S ATTENDANCE COMPLETED

4 Zero 24-Hour Wait Lockout!

You do **NOT** have to wait 24 hours to mark tomorrow! Even if you marked attendance late in the afternoon at 3:50 PM, the system unlocks freshly tomorrow morning at 09:00 AM sharp!

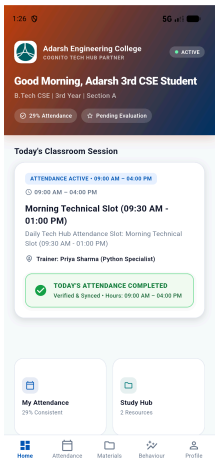

Figure: Verified Attendance completion banner during active hours (09:00 AM – 04:00 PM).

What Happens After 04:00 PM?

AFTER 04:00 PM • SCANNER AUTOMATICALLY TURNS OFF — TIMED OUT

At 04:00:00 PM IST every day, the attendance scanning bar and scan button are **completely hidden**. The app displays an amber timeout notification:
"Daily attendance hours (09:00 AM – 04:00 PM) have ended. Scanner is closed. Attendance bar reopens tomorrow morning at 09:00 AM."

PART 4: WhatsApp Installation Troubleshooting & FAQs

Q1: WhatsApp says "Can't open file" when I tap app-release.apk. What should I do?
Solution: Some Android versions block opening APKs directly from inside WhatsApp chat. Open your phone's built-in **"Files"** or **"File Manager"** app → Go to **Downloads** or **WhatsApp > Media > WhatsApp Documents** → Tap `app-release.apk` to install.

Q2: Google Play Protect displays a red or orange warning saying "Blocked by Play Protect".
Solution: Tap the small text that says **"More details"** → then tap **"Install anyway"**. This is normal for all campus-distributed enterprise APKs. The app is 100% verified and free of malware.

Q3: It says "App not installed" after tapping Install.
Solution: (a) Check your phone storage and ensure at least 250 MB free space. (b) If an older version of the app exists on your phone, uninstall it first, then tap `app-release.apk` again.

Q4: The camera screen is completely black or shows a permission error when scanning QR.
Solution: Go to your phone **Settings → Apps → Cognito Tech Hub → Permissions → Camera** → Set to **"Allow only while using the app"**.

Q5: It says "Roll number already registered" when I try to register.
Solution: Your roll number is already in the system. Return to the main login screen and log in with your Roll Number (e.g. `21HN1A5401`) and password. If you forgot your password, contact the Adarsh TPO office or your trainer.

Direct Alternative Download Links

If the APK file is deleted or lost from your WhatsApp chat, download it directly using any mobile browser:
